Action taken Report on Stakeholders Feedback on Syllabus

The structured feedback is being taken, both offline and online, regularly from different stakeholders - Students, Teachers and Alumni. The analyzed feedback makes one of the major contributions toward improving our curriculum.

The process involves:

1. Obtaining Structured feedback
2. Consolidation of the structured feedback into reports
3. Stakeholder feedback analysis done.
4. Discussion on Feedback analysis report and provide recommendations.
5. Action Taken on recommendations and feedback is shared with affiliated university for necessary improvement.

S. No	Program with Subject	Stack Holder	Summary of Feedback Received	Action Recommended	Action Taken
1	B. Sc Mathematics	Teacher	1) Numerical Analysis and Operations Research Topics need to be included in syllabus	Teachers feedback report regarding addition of topic in syllabus may be shared to the university	Feedback report regarding addition of topic in syllabus is shared to the university.
			2) Some reference book of mathematics needed in library for more rigours learning.	Some Reference books may purchase as required.	Reference books on Operations Research and Calculus has been purchased.
		Student	Besides textbooks, study materials like notes, e-books etc required for deep study.	Concern subject faculty requested to do the needful.	Study materials are provided Online.
			Students requested for hands on exercise in computer.	Topics like matrices, roots of equations and elementary operations may be taught through computer programming.	1 hr/ week Computer lab is assigned to the students.
Alumni	Most of the alumni commented that syllabus was updated but syllabus should contains more applied aspects.	Addition of applied mathematics topic in syllabus may be requested to university	Feedback of alumni is shared with university.

2	B. Sc Physics	Teacher	1) A brief glimpse of the research work (subject of Nobel Prize winner of each year in science) should be included in the subject for grading.	Teacher's feedback report regarding addition of topic in syllabus may be shared to the university.	Feedback report regarding addition of topic in syllabus is shared to the university.
			2) As per practical topics in syllabus, related equipments are required in the laboratory.	Some equipments may purchase as required.	Some equipments has been purchased.
		Student	Besides textbooks, study materials like notes, e-books etc required for deep study.	Concern subject faculty requested to do the needful.	Study materials are provided Online.
			Students requested for more equipments in the laboratory.	Equipments are required to understand the topics of optics, thermodynamics and mechanics.	Some equipments has been purchased.
		Alumni	Most of the alumni commented that the curriculum should be updated with more technical skills to face the industry/ academia.	Addition of applied physics topic may be requested to university.	Feedback of alumni is shared with university.
3	B.A Education	Teacher	1) It is observed that the basic learning levels of students are low. Students hesitate in speaking and are not familiar with proper manner of writing answers.	It is recommended that more opportunities should be provided for student participation. Practice of effecting writing should be done by providing study notes, class tests, assignments and writing competitions like essay, calligraphy etc. writing.	During classroom teaching student participation is encouraged. Various co-curricular activities are organised to provide more speaking and writing opportunities to students. Class notes are provided to students.
			2) Reference books are needed in library for in-depth learning.	Some Reference books may be purchased as required.	Demand for purchase of Reference books has been given.
